M4

Fit for All.

Majority.
Less is More.

Style is knowing who you are,
Without sacrificing your own comfort.

Minimum.
Simplicity is beautiful.

Maximum.
In the name of comfort.

Style is the answer for everything.

Motivation.
Work Happy.

Fit for All.

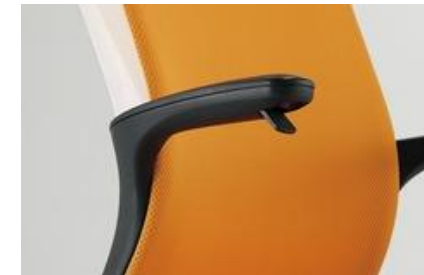

We designed M4 for everyday use. Is the people's chair that fulfill the least minimum requirement without sacrificing the style and the most important aspect... comfort. .

Everyday chair for Everyone.

We designed the outer back cover firm and sturdy, thus it gives a better support and durability. But the inner backrest is soft on the upper body but firm at the waist area, this is to give a better support to your lower back sector but at the same time feeling soft cushioning at the upper body sector.

The seat height adjustable lever is located at the armrest as M4 was designed to be easy and convenience to use.

The seat cushion is designed with grooves covered in three-dimensional mesh, it helps to disperse body heat from the seat cushion to maximize comforts for the user.

The backrest uses mesh finished. Thus it helps to dispersed unwanted body heat and make long hours seating truly comfortable.
