Essential Space.

Waiting at a crowded spaces can be frustrating. Everyone deserves a space of their own. No matter what kind of condition.

Madre was borne through observations, researches and interviews, to meet the basic requirements and solve the ever crowded environment.

Legs Room

The curve corner allows better legs room and ease of access for disabled or senior citizen

Wheel-chair friendly

Bigger objects like wheelchair or baby stroller could access easily

Easy Access

The corner of the chair was designed for easy access without blocking the main pathway

Smart Design.

Each details can be seen on the chair itself. Every single design comes with a reason and significance. From crafting out your personally space to creating more legs room, Madre is more than just a lobby chair.

Comfort

Underneath the chair was designed to be hollow, so legs could tuck under for more spaces

Personal Space

Individual space is craft out so that everyone is allocated to their own space

Visually Smart

The backrest was designed a little lower than usual lobby chair, this gives the working staff better overall visual across the floor
